

## ROJAS LEÓN RICARDO

### SOFTWARE ENGINEERING

My Address: I live at Avenida del Paseo #54. Col. Paseo del Sol, 83246, Hermosillo Sonora

Birth Date: My birth date was on March 18th, 1993

Cellphone: 662 278 35 02

E-mail: [rrojasleon.dev@gmail.com](mailto:rrojasleon.dev@gmail.com)

WebPage: <http://ricardorojas.github.io/>

I am a person that likes to learn new things. Open to new experiences and always interested on knowing about new technologies. My best virtue is that I can learn from my mistakes and I know that life must go on.

## LABORAL EXPERIENCE

### Developer

Fitness Sport Gym

October 2014 - December 2014

I was part of the developers crew of a desktop system to help a GYM (fitness sports gym, in Hermosillo) getting a better control of the clients at the establishment. The software helped to get administrative control as well.

### Developer ▶

HLO Supply

May 2015 - July 2015

I helped to develop a web site for a business called HLO Supply Solutions.

### ▶ Developer

Universidad de Sonora

May 2015 – Juny 2015

I was part of the developers crew of a web system made at Universidad de Sonora. The client was an Administrative Manager of the Economy department. And the goal of the system was to get a better control of the items at stock that the client had.

## ‣ Developer

Universidad de Sonora  
*October 2015 – April 2016*

I developed a web system at the Universidad de Sonora, in the Industrial Engineer department which goal was to follow the whole process of the students that is making the professional stances at an enterprise or business.

## ‣ Developer

Universidad de Sonora  
*August 2016 – October 2016*

I worked as a developer for an online survey to help the mining sector in Sonora recruit people. The base for that survey was pure html/css. Events handled by javascript and SQL Server as the DB Manager. The project stopped 2 months later due to the client's decision.

## ‣ Developer

EvolveMedia LLC  
*October 2016 - Present*

Started doing my professional stances at EvolveMedia LLC (now known as gorilla Nation Mexico) in October 2016. Where I had a chance to prove myself & get a work as a front-end developer. On the actual day, I'm still working on this place.

## EDUCATION

### ‣ Universidad de Sonora. Unidad Regional Centro

*Software Engineering*  
*Aug 2012-Apr 2017*

### ‣ Centro de Bachillerato Tecnológico Industrial y de Servicios No. 132

*Food Technologist*  
*August 2008- June 2011*

## SOFT SKILLS

I am a very responsible person that knows how to follow orders, but what I like the most is to learn new things, sometimes by myself and some other times by teachers or someone else with better experience than mine. I am not afraid of making mistakes as long as I learn from them. Very confident of myself.

## HARD SKILLS

- ▶ **SQLServer:** I Know the basics (DB creating, giving permits to users, create/edit tables and views).
- ▶ **C#:** Learnt by myself. I am hoping to have a certification on C# programming in the future.
- ▶ **VUEJS:** The front-end framework I started using from the past year to the actual day. I learned it by purchasing online courses and practicing every day. I use this framework in daily basis.
- ▶ **HTML:** From the past 4 years, I've been using almost daily. One of my strongest knowledge.
- ▶ **JAVASCRIPT:** Followed some courses, asked for guidance, followed tutorials. Learnt by myself. There's still so much to learn but I'm no new to this.
- ▶ **ASP.NET:** Started exploring the ASP.NET environment by myself, because I am interested on web development.
- ▶ **ANDROID:** I am interested on mobile apps development, but specifically on android. I do not know much, I have just done some few class projects to learn the basics of this environment
- ▶ **ENGLISH:** My English education started in 2004, when I was on elementary school and concluded in 2010, while I was studying at High school. All of my English studies where from an institute named IMARC, located in Hermosillo, Sonora. My vocabulary on English and pronunciation may not be perfect, but I am sure I can sustain a conversation in English and being capable of making my point to be known.
